

# Kid Ink™ Sponsor Program

## Donate Empty Printer Cartridges & Used Cell Phones Help Our School Raise Funds

- It is estimated that 300 million printer cartridges are thrown away every year.
- These cartridges are made of industrial grade plastics and may take up to 1,000 years to decompose.
- Cuts in school budgets often affect the quality of education for our children.
- Partnerships with schools can benefit a business by raising its image within the community.
- This is a wonderful opportunity to give back to the community and help our school.
